From butler service to wellness rituals and suites larger than most New York City apartments, hotels and resorts offer a regular array of luxury amenities meant to lure the discerning traveler. But one perk feels especially irresistible — the private plunge pool.

Perfect for a honeymoon, romantic getaway, or even a family trip with kids, the premise of an en-suite plunge pool offers an enticing upgrade that ensures a stay will be private, intimate, and exceedingly memorable

Most resorts with such accommodations are located in tropical areas and warmer climates such as Mexico, Bali, Greece, and Thailand. Some come with the added bonus of an astonishing ocean view, or a location ensconced within lush greenery.

I've been lucky enough to stay in hotels with plunge pools on two occasions — on my honeymoon in Bali, and at Copper Creek cabins at Disney's Wilderness Lodge in Walt Disney World. Both were fantastic experiences I'd love to repeat, however, they often come with a price of over \$1,000 per night.

But not all of the time. I've researched several options that all start at less than \$500 per night. In selecting these resorts, I looked for properties that offered far more than just the plunge pool perk, including idyllic locations, gorgeous views, and unique amenities. All properties are rated three stars and up, with overwhelmingly high ratings on trusted traveler sites such as Trip Advisor, Hotels.com, and Booking.com, and start at just \$112 per night in the low season, which varies based on the location.

## Andronis Arcadia Hotel, Oia, Greece

Andronis Arcadia

### **Book Andronis Arcadia Hotel starting at \$466 per night**

Located in Oia on the Greek island of Santorini, the Andronis is a five-star resort with just 52 rooms and offers exactly what you picture when dreaming of a Greek island getaway. The hotel is only five minutes from the popular main shopping area of Oia, but manages to feel far removed from civilization thanks to suites with private infinity pools on balconies overlooking the glittering sea.

The hotel features the crisp airy white aesthetic synonymous with Santorini style, and suites come with plush day beds to savor such tranquil views. Breakfast is included with your stay, which helps offset the higher price tag, and while there are two restaurants on property, town is just a short walk away.

**Trip Advisor Rating:** 5 out of 5

**Booking.com Rating:** 9.4 out of 10

**Pros:** The view from suites' infinity pools is exactly what you picture when dreaming of Santorini, and the experience here delivers on such high hype. Being close to the village center of Oia is another big plus, making it easy to explore on foot.

**Cons:** Getting to your room can be a hike, but this is often the case for hotels in the area. While some may view being so close to Oia as a pro, the village gets very busy with tourists and cruise ship visitors leaving it feeling very crowded in high season.
