### BEST FOR FAMILIES

Andronis Concept, Santorini

#### 14. Santorini for all

On honeymoon-central Santorini most hotel staff regard children with the panic usually reserved for unattended bags. Andronis Concept is a notable exception. It offers kids' cooking classes, tennis lessons, yoga and even spa treatments. There's a reassuringly grown-up attitude, though, to its marble-clad public areas and 28 swanky suites and villas. A tip: the hike from your base, Imerovigli, to Oia is an extraordinary 8km that will tire out the children, leaving you free for a romantic dinner on the hotel's terrace.
