ANDRONIS

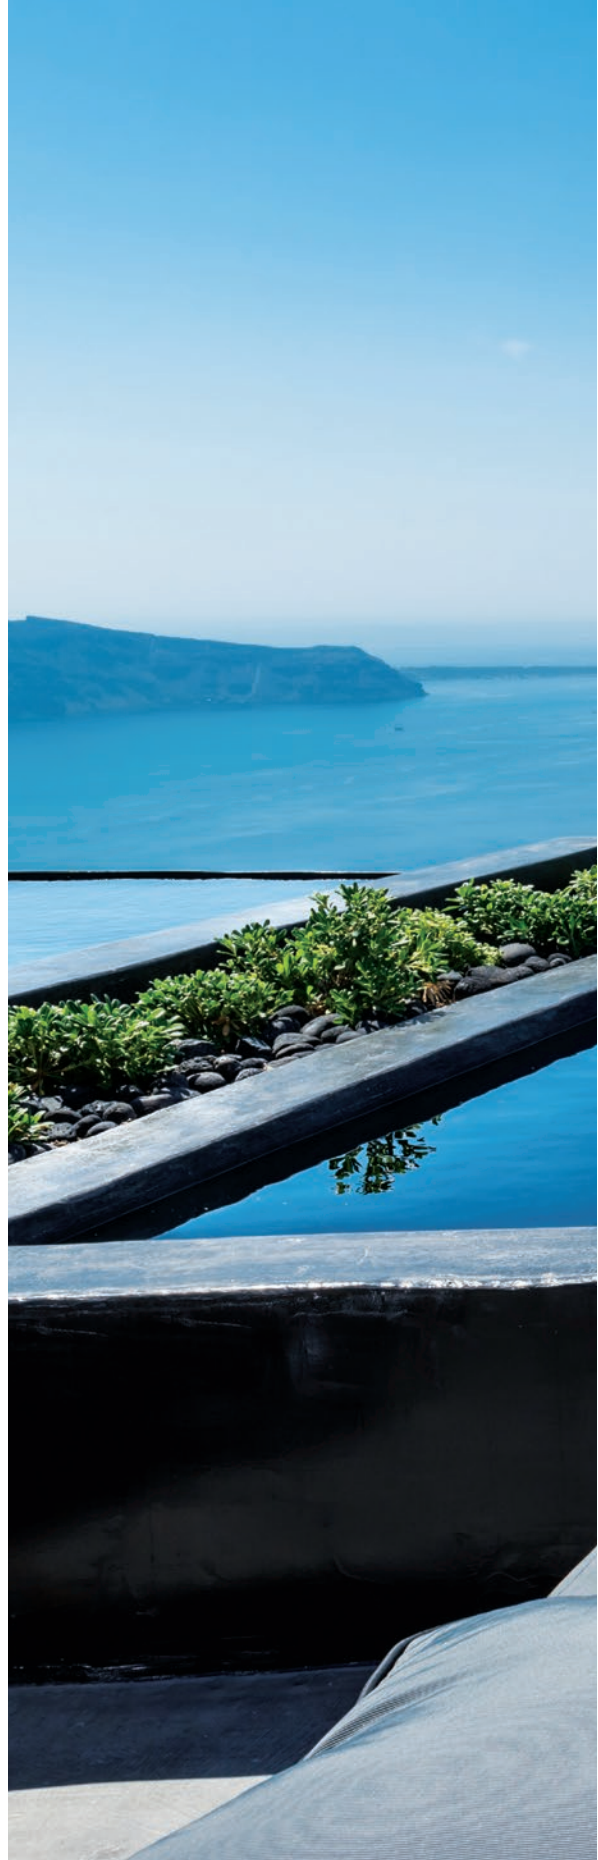

SANTORINI

Located in Imerovigli, a picturesque secluded Santorinian village on the island's most romantic coastline, lies a brand new wellness resort that leaves guests continually speechless from the moment they arrive.

Andronis Suites, a contemporary 28-suite hotel, exudes luxury. Each stunning suite boasts a private balcony with an infinity pool that looks out to the Aegean Sea and the signature white-washed village of Oia in the distance. The Wet Allure suite is complete with an ocean-view bed, and marble stairs that lead you beneath your bedroom to a state-of-the-art dressing room, vanity area, and cave-like shower.

In the morning, as you slide open the glass bedroom doors and step out onto the balcony, you are immediately welcomed by the stillness and silence of this magical island. A floating breakfast can be arranged on request, and there's simply nothing like enjoying a glass of Champagne and a banquet-like breakfast in your very own heated infinity pool, in one of the most romantic destinations in the world.
